Council Bluffs Lumber Co., coal. Chief of Police Carey is still bothering the reporters by remaining out of the city and bis subordinates refusing to give a hint as to character or extent of his mission.

A little boy named Hughes was arrested afternoon for jumping on a motor train while it was in motion and attempting to steal a Judge McGee will give him a mild lee

From March I up to last night there have been 1,410 arrests made by the police and marshal's force in this city. This is almost as great as the number of arrests made dur-

ing the entire year last year. In the city marshal's office there is posted a list comprising the names and description of fifty-five deserters from the regular strmy in the department of the Platte. The date of descrition is given, together with the nof enlistment of the private and the name of his company and regiment. A standing reward of \$0 is offered for the arrest of

any of these men. A velley of five or six shots evidently from a revolver, followed after ac interval of a few seconds by another similar volley, attracted attention last evening. The shots apparently came from Washington avenue, between Sixth and Seventh streets. Several officers heard them, but the most diligent inquiry failed ta throw any light upon their origin or the cause that required the fusilade,

Charles L. Palmer died at an early hour yesterday morning at the residence of his brother, H. J. Palmer, 534, Washington avenue. He had for some time been in ill health, making a brave fight against Bright's disease. He was a young man that made none but friends of those with whom he came in contact, being of a geniel, sunshiny disposition, even when long illness had sadly broken his youthful disposition.

When Sheriff Delasmutt, of Mills county, came up to get Toll Tolles yesterday morning and brought with him the two boys, Joseph Gilmore and Fred Hansen, who ran away from the Christian home. They were cap-tured at Pacific Junction and held there until the efficer made arrangements to come to the city. They were given quarters in one of the upper rooms of the city init last night. They will be examined by Judgee McGee this

The many friends of Charles L. Palmer will be pained to hear the announcement of his death, which occurred at the residence of his brother, H. J. Palmer, 534 Washington avenue, at 1:40 o'clock yesterday morning. Mr. Palmer was one of the brightest young men of the city. For the past two years he has been afflicted with Bright's disease of the kidney's, and it was this that caused his death. He was around and about the streets during the early and middle parts of the week. He was scarcely twenty-one years The arrangements for the funeral have

The work of excavating the lower end of the Indian creek ditch has been almost completed, and by the end of this week Contrac-tor Huber will have his men at work on the ditch along the line of the county road. The question of the right of way through the wil-lows from the point where the ditch leaves the public highway until it reaches the river has not been settled, but the work has been finished and the settlement can be made at the leisure of the city. If the weather is at all favorable the contractor will get his work finished ready for acceptance before the expiration of the thirty days given him, and before the ground freezes up Indian creek will be flowing directly into the river.

Contractor Moore is still pushing the brick paving as rapidly as the obstacles presented by insufficient brick will let him. If he had purchased brick outside he would have had his contracts nearly finished but \$15,000 or \$20,000 of the peaple's money would have been sent out of town. He has used only home made brick, and designs to use nothing else. The council will grant an extension of time for the completion of the work and next sping an immense modern brick-making plant will be a provided as a spin of the council of the council will be a spin of the council paving brick a dap. This will give employment to a large number of men, keep all the money paid out for paying at home, and reduce the cost of paying.

Young Middleton, the victim of a serious case of blood poisoning is still suffering ser lously. Young Middleton cares for the doc stock, buggies and barn, and also attends to other chores about the house. A fedays ago he washed out the bowl used by Dr. ney in his operating room. There was o Middleton's hand at the time a small pimple Middleton's hand at the time a small pimple which had been opened on the previous day. He thought nothing of the matter at the time, but noticed a stinging sensation shortly afterward. By night his hand and arm had begun to swell, and were very painful. As soon as Dr. Pinney discovered the circumstance he administrated was also sense the same and the sam administered remedies promptly, but it is yet a question whether Middleton will be able to keep his arm or not, though the chances are that he will recover.

Sheriff Delashmutt of Milis county camup yesterday and took away A. C. Tolles the tice on Saturday afternoon. Tolles is wanted at Glenwood to answer a charge of illegally selling beer and whisky. He was run-ning an original package house there some time ago, and continued to run it after the supreme court decisions had de-clared it to be a violation of the state pro-hibitory law. He was also mixed up in some sort of a difficulty that occurred in his alonn when a stranger was assaulted and badly beated. A warrant was issued for his arrest, but he got out of town before it could be served and went over into Nebraska. be served and went over into Nebraska When he supposed the trouble had all blown over he returned to Council Biuffs. The Mills county authorities were apprised o Mills county authorities were apprised of the fact that he was here and they deemed the offense with which he was charged of sufficient importance to warrant his arrest

The city council will again be asked to pass a new ordinance granting to Marie Mynster the right to construct and operate a motor line to Mynster Springs via Benton and Har-rison streets and returning via Eighth and several other streets to Broadway. The or-dinance asked for was passed by the council several months ago and the interested part-less supposed it was all wight. Recently Mr. several months ago and the interested parties supposed it was all right. Recently Mr. W. A. Mynster has completed his arrangements to begin work on the line, but when he went to the city cierk's office to look over the ordinance again and acquaint himself once more with its provisions it could not be found. As inquiry revisions it could not be found. visions it could not be found. An inquiry re-vealed the fact that it had not been signed or recorded, and was as thoroughly lost as if the council had revoked it. The mysterious dis-appearance of the document has occasioned a good deal of talk, and it has been darkly in-sinuated that some rival company has been responsible for its disappearance. Few of the councilmen, however, entertain such an idea, but believe it has been lost in the shuffle somewhere accidentally, and look upon it as another small incident, emphasizing the fact that the city should provide better se-curity for its valuable books and papers. Mrs. Mynster will apply for a new charter. and there is no reason to believe the council will refuse to grant it.

THE NEWS IN THE BLUFFS.

A Council Bluffs Reporter is Held Up By Footpads and Sees a Ghost.

ANOTHER GOOD LOCAL GRAIN MARKET.

Something About Justices' Fees-The Postmaster's Census-A Quiet Sunday in the Bluffs-Minor Mention and Personal.

A few evenings ago a cotorie of newspaper reporters were sitting in the police station waiting for something to turn up and discussing matters that pertained to the profession. Chief of Police Carey and several officers were present, and they were adding their reminiscences to the fund of reporters' stories. One of the reporters of a city paper who has enjoyed the novel experience of being "held up" by footpads was recounting a recent midnight attack which he had successfully kept from his brother newsgath-

"It was Saturday night," he continued, "the last time I was held up. The little incident occurred between 12 and 1 o'clock not far from Bayliss park. Two fellows accosted me, and suggested that I better hold up my hands a little while to let the blood circulate a little more freely through my oody. Therequest was emphasized by two cold revolver muzzles pressed close to my head. My arms went up as straight and quick as those of a jumping jack, and I kept them up as perpendicular as two exclamation while those fellows made a careful examination of my pockets.
Of course they didn't find anything, and
apologized so nicely and explained so plausibly that they were desperately hungry and only wanted to get money enough to get something to cut that I invited them to ac company me to a restaurant and offered to stand good for their suppers. They were stand good for their suppers. They were afraid of a trap, however, and left. When I got my arms down again my legs feit a little shaky, but I made good time through the park and down Sixth street.

"I was pretty badly scared, but that scare

was nothing to wnat I got a few moments later. I saw a ghost, a real ghost, and all the pooh-poohing that you can do won't share my conviction that my senses were in a condition to be trusted. I went on down the street at a lively gait. The court house tower lights were making everything in the vicinity as distinct as the sunshine. The houses on both sides of the street loomed up big and silent, and there was not a glimmer of light coming from one of them. If I had been going through the aisles of a graveyard could not have been surround surrounded more intense stillness, evidences of life. Just as I got in front of a residence you all know I was somewhat relieved by the appearance of the well known contractor bimself who has lived there for years. He came out of the front door, stood a moment looking up and down the street and then turned and looked me square in the face. I was just on the point of speaking when he turned slowly and walked around the house. My experience with two tramps had obliterated for the instantall recollec-tions of recent events, and the familiar form of the genial contractor, who was one of my best friends, had disappeared around the corner of the house before I recalled the fact that he had died and was buried some time ago. Then I became frightened. I stopped to think and tried to assure myself that it must have been some other member of the family that looked like the contractor, but the more I thought about it the more I was convinced that it was none other than the gentleman himself. I had observed the minutest details of his dress, his bening smile, and the quiver of the that had for years been shaken with palsy.

The laughing and twitting of the reporters did not relieve the young man's mind, and no amount of arguing could convince him that the appartion of the dead man had not walked past him and saluted him with a kindly smile. kindly smile.

A Good Local Grain Market. The Union elevator in this city, which was recently leased to the Brown Brothers

capacity the first time in a number of years. The great elevator has a capacity of 1,000,000 bushels and is one of the largest in the west. It employs a large force of men, and the com pany, under whose lease it is now being operated, proposed to make this clevator one of

the most important in its possession.

The well known grain man, H. O. Cook, of this city, is superintendent of the elevator, and he is exerting every energy to build up Council Bluffs as a great grain center. He has established here a local grain market, and this is something never before attempted in the city. The company has employed two competent grain men to look after the local market exclusively. Their duties are to keep close watch of all the grain which comes to the Bluffs from the surrounding country and to buy the best grades of it up for eleva-

The farmers have got wind of this new scheme, and they are taking advantage of the liberatity of the elevator company by selling it their grain. The company pays the highest market prices for corn, oats, wheat, rve, barley, and in fact all kinds of grain. This is the source of big gain for the farmers, and they are bringing their grain to the city every

The elevator company is satisfied with the beneficial results of the local market and the interest the farmers are taking in building it up. Superintendent Cook says there is no reason why Council Bluffs should not have a good grain market and he is convinced that in time it will account that of any city in this n time it will exceed that of any city in this

The Brown Brothers' grain company is a large and reliable corporation. Its officers are C. T. Brown, president and general manager, G. K. Brown, secretrry, and W. E. Kisker, vice president and treasurer. The company operates clevators and warehouses on the Union Pacific road and all its branches, Its principal office is in Omaha, Every elevator is operated for the benefit it can be to the company, and the town in which it is located. The elevator here is a Council Bluffs concern. All the help employed resides in this city and all the bank ing of this branch is done here. By the eans the company finds that it succeeds better in the management of its elevators and warehouses, and gives better satisfaction The Council Bluff's elevator has been leased

THE BIGSLEY SHOOTING AFFAIR. Husband and Wife Accuse Each Other

of Wrong Doing. Mrs. L. J. Bigsley, who shot her husband three times Sunday morning about 1 o'clock, flatly denied having had anything to do with the shooting when Captain Mostyn and Sergeant Graves entered her house at Twenty-second and Vinton streets to arrest

"What do you take me for?" she said. "Do you suppose I have nerve enough to shoot a man

"I don't know whether you have nerve enough or not, but is it not a fact," said Captain Mostyn. "that you shot your husband about an hour ago?" "No sir, I did not," she said very firmly.

"No sir, I did not, she said very hemy.

She denied having seen her husband that night, saying that he had not come home. When Sergeant Graves found his gloves and the lap robe and whip in another room, Mrs. Bigsley then admitted that Mr. Bigsley had been home but had gone out again, but she knew not where. nights when he was out with other women. nights when he was out with other women, and was convinced that he was habitually committing adultery. In fact, he had told her so in a taunting manner several times.

Saturday night she went to the California chop house, where a girl named Frankie work, with whom she said Bigsley had been intimate for some time. She did not find him, and went home. When Bigsley went nome he created a disturbance and began to abuse her. Knewing his habits, and being stung by his ill treatment, she became des-perate and decided to shoot him.

Mr. Bigsley says that he went home is a

perfectly orderly manner and went in the house to get the lantern. His wife got out of bed to help him flind it, and when he had it lighted and started out of the door she opened fre on him with a revolver. She shot four times and proved to be a good marksman, for three of the shots took effect. He received one buffet in the back part of the shoulder blade, another in the thigh, and an-other in the right hand. He was taken completely by surprise and started to run for his life, never stopping until he reached his meat shop at 722 South Thirteenth streat. The wounds are not dangerous and Bigsley will be able to appear in

ourt today. Both Bigsley and his wife were released on their own recognizance to appear today be-fore Judge Heisley. Mrs. Bigsley is a fine looking woman, but admits that she has be-come rather desperate on account of the ill-treatment and dissipation of her husband. Mr. Bigsley denies the charges of adultery and cruel treatment and says that his wife and cruel treatment, and says that his wife has not been faithful to him and that some of the young "bloods" she has been having a high time with have persuaded her to kill

IT PAYS TO INVESTIGATE. People who have investigated the heating problem the most are those who come the carest solving it. This is the age of inven-ion and discovery. Appliances for generatthe makers of the ART GARLAND stoves, who have vastsums invested in their manufactory, put nothing tipon the market until the principle avolved has reached the highest stage of developement. Then they suarantee the goods to be just what is claimed for them.

THE 1800 ART GARLAND HEATERS realize the highest perfection in the stove maker's art, and generate and distribute the greatest amount of heat for the fuel consumed of any stove in the world. This is obtained by the new system of hot air duets and revolving firepot that prevents the accumulation of ashes between the fire and the heating surfaces. Come and see one of them in operation at my hardware store, 504 Broadway, Investigation will convince you that it is the best as well as the handsomest stove ever made. est stove ever made.
